

extravasation, implantation, transplantation, invasion and/or migration of said cells in vivo.

72
72. (New) The biological preparation of claim 71, wherein said cells are selected from the group consisting of hematopoietic cells, stromal cells, keratinocytes, blastocysts, neuroblasts, astrocytes, fibroblasts and genetically modified cells.

E1
Cont
73. (New) A biological preparation for use in vivo comprising an embryo and a purified mammalian heparanase enzyme being externally adhered thereto, thereby increasing a natural amount of heparanase externally adhered to said embryo, so as to enhance implantation of said embryo in vivo.

REMARKS

Reconsideration of the above-identified application in view of the amendments above and the remarks following is respectfully requested.

Claims 54-57 and 59-70 are in this case. Claims 60-70 were withdrawn under a restriction requirement as drawn to a non-elected invention. Claims 54-57 and 59 have been rejected.

By this amendment, claims 54-57 and 59-70 have been canceled and new claims 71-73 have been added.
